Comments for Public Posting: My comments are in reference to item #3 of today's Transportation Committee Meeting. It is important that street sweeping continue through neighborhoods. There are people sleeping in cars that have been parked for several weeks. On North Berendo St. just north of Hollywood Blvd., there are several vehicles, including a large RV that have been parked for several weeks without moving. This has resulted in an infestation of rats and vermin, including roaches. It is important that the city continue street sweeping to prevent blight and unsanitary conditions. Please reconsider the motion to CONTINUE street sweeping. Thank you!
